Objective

Full-time employment designing, developing, building, deploying and maintaining web-based applications or resources working amongst an equally dedicated team.

Synopsis

I build web-based solutions that follow widely adhered to standards and best-practices. They are intuitive, clean and responsive. My full portfolio with specific projects I've worked on and links to code sources, live sites and demos can be viewed at: <http://ashleymervyngraham.com>

Coming from a service-oriented background I know that I can work with people from all walks of life, set and meet goals, and thrive under pressure, all while being incredibly flexible and thoughtful in my day-to-day task handling and problem-solving.

I know I would be a welcomed addition to any team: I am friendly, charming and always leave co-workers, clients and vendors with a good impression

Skills

Design & Development — 5+ years experience

HTML, CSS, Javascript/jQuery (with various libraries and add-ons), **PHP, Apache** (amongst other servers and deployment software) and **MySQL** (amongst other databases: SQL or not).

Very comfortable with frameworks such as **Bootstrap** and **less**, content management systems such as **Wordpress & Drupal** and designing layouts using **Adobe Creative Suite**.

Experience with **Ruby/Ruby on Rails, Python** and **Perl** as well as command-line programming with **Bash** and utilizing common **GNU/Linux** commands and programs.

Systems Administration — 5+ Years experience

Windows & GNU/Linux: I am extremely comfortable with both the desktop or the command-line. Well suited for purchasing, installing, updating and maintaining desktop and laptop systems and components or assisting key decision-makers and technicians.

Experience

Leadership/Assistant Store Manager, Walgreens — 5 years experience

Waldwick, Wayne and Englewood, New Jersey 2010 - Spring 2016

Assisted and eventually led management in operating the day-to-day and long-term store operations.

- Worked at establishing strong relationships with vendors to increase sales and profit, establishing a campaign generating **\$60k** locally and over **\$500k** regionally.
- Identified opportunities for growth, established goals outside our comfort zone, and led employees in transforming our opportunities into strengths.
- Reached out to poor performers, enabling them to analyze and resolve the roadblocks stopping them from reaching their potential.
- Stressed the importance of surpassing customer expectations by creating a culture of outstanding customer service to set ourselves apart in an overcrowded market.
- Always looked for potential personal and organizational improvements to benefit all parties.
